8: Aorta
The aorta is the largest artery in your body. It moves oxygen-rich blood from your heart to the rest of your body.

3: Right Ventricle
The right ventricle (RV) is one of the four heart chambers. It receives deoxygenated blood from the right atrium (RA) and pumps it into the pulmonary circulation.

Problem Statement

Human tend to Grasp & Retain 10% of what they read 20% of what they hear and **90% of what they experience & interact with (Kinesthetic)**

85%
of school-aged children are visual and kinesthetic learners
and 15% are Auditory Learners

Current Solutions and Problems with them

Smart Class Solutions are mostly used everywhere due lacks to deliver interactivity.

1. Best Content is Video
2. Videos lack kinesthetic
3. Lack of Interaction & pedagogy

VR Solutions Solves the problem but unable to reach masses:

1. Average 8 students share one device.
2. No Access at Home for Self Study.
3. Lack of customization as per pedagogy.
4. Limited content due to huge content size.
5. Huge capital investment for institutes.
6. Health impacts on long usage
